December 22, 2023

To Whom it May Concern:

The City of Joliet and the developer of the Third Coast Intermodal Hub I, the industrial subdivision west of Route 53 immediately south of Millsdale Road, have entered into an annexation and development agreement authorized by Resolution 7720 dated December 21, 2021 with respect to the development of the subdivision.

The City has obligated the developer to construct a Railroad Bridge over the rail line in the vicinity of Millsdale Road for automobile and truck access to the subdivision.

Until the construction of the Railroad Bridge is completed, truck access is granted to the subdivision only from the west via Millsdale Road. Pursuant to its right as a home rule municipality, the City shall not enforce the weight restriction ordinance for the section of Millsdale Road leading to the subdivision until the construction of the Railroad Bridge is completed.

Sincerely,

Christopher Regis
Interim Corporation Counsel
